

High Contrast

The High Contrast extension for Google Chrome allows you to change or invert the color scheme to make web pages easier to read. This is a free extension available to anyone and uses high contrast color filters that are designed specifically to make it easier to read text. Once the extension is downloaded, you will find the High Contrast icon in the top right corner of your screen. When you click on it, you need to select 'Enable'

Once you select 'Enable' several choices appear. You can then select the screen contrast that works best.
